Footnotes:

1. Remediation for the 4010 version of the 837 and 835 was completed in 2002. This schedule reflects additional work required to implement the 4010 version with addenda.
2. The projected start date was omitted because this phase has been completed for this transaction.
3. DHS has prioritized this transaction low due to the lack of an attachment standard necessary for remediation and implementation.
